

Moscow, Russia

Moscow holds in the Russian imagination as the symbol of spiritual and political power. Throughout much of its history the city was known as Holy Moscow, and was valued as a point of pilgrimage not unlike Mecca, or Rome. Moscow has grown into the capital of a strong and prosperous realm, one of the largest in the world. As Russia enters the 21st century, development and reconstruction are at an all-time high. Moscow is very much on the move and aims to offer the visitor interesting views of both the past and present of its mysterious mother country.

Golden Apple *Avantgarde Superior*

The hotel's image is based on the unique twist of modern interiors and distinctive design within the space of a classical historical building. Each of the floors has a different colour, making the hotel a composition of a bright rainbow against a grey background. All the hotel areas are dressed in natural wood, marble and slates. A refreshing décor complimented by designer furnishings, contemporary elegant and comfortable interiors – make the hotel itself a work of art.

Location: The Golden Apple is located within the central business district near restaurants and the prestigious shopping area, theatres, museums and nightlife. It is within walking distance of the Kremlin and Red Square.
