

Alicante, Spain

Capital of Costa Blanca, this hidden city offers the perfect climate for those looking for a relaxing holiday. Blessed by a microclimate on the coast of the Mediterranean, its sandy beaches, historical buildings, theme parks, sun and fiesta make of Alicante one of the most cheerful cities of Spain.

Amerigo Hotel *Avantgarde Superior*

The Hotel Amerigo has been through a series of previous lives before becoming the exceptional property it is today. Formerly a Dominican convent, the building was saved, and wholly refurbished by Elvira Blanco. She has reaffirmed the construction's unitary character, and determined an intimate, personal series of spaces. A clear example of modern Spanish hospitality, Hotel Amerigo has a well-equipped fitness suite, a roof terrace with heated pool and fantastic views of Alicante's castle. Finish off a Mediterranean day with dinner in one of the hotel's two restaurants.

Location: In the middle of Alicante, just fifteen metres from the town hall and the well-known La Esplanada Avenue.
