Hotel Kube **Avantgarde Luxury**

Paris has gained its first ice bar in the funky new Hotel Kube, which opened on November 16, courtesy of the same team as the Murano Urban Resort. Keeping up the hotel's cube theme, the bar designed by artist Laurent Saksis and Jérôme Foucaud has ice block walls, ice bar and ice glasses, illuminated by constantly changing coloured lights. The hotel will happily loan you a coat and gloves in the sub-zero temperature, while you nibble and down as many Grey Goose vodka shots or cocktails as you can.

Location: It's located just behind the Gare du Nord train station.
